IT'S NOT ABOUT THEORY, IT'S ABOUT EXPERIENCE

About Scenario Systems International (SSI)

SSI is an unbiased, independent, global consulting firm that has established itself as a world-leading source of IT expertise and guidance for global corporations. Our consultants have decades of executive IT experience that allow us to recognize knowledge that will provide benefit and leverage it to solve dynamic business problems in other environments. Our independence assures the highest level of objectivity and confidentiality.

Unequaled Consulting Experience

Our consultants are our most powerful resource. We take pride in attracting the world's finest business and technology consultants. Selecting only the most talented and experienced consultants provides our clients with the best the industry has to offer.

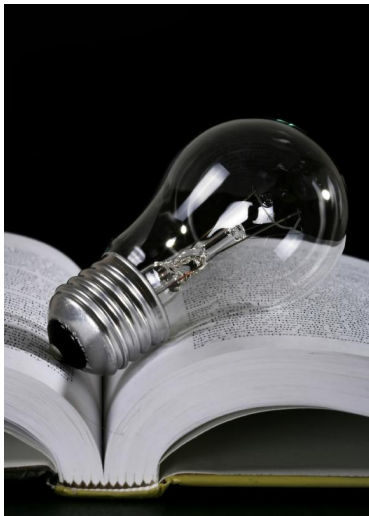

From decades of hands-on experience with IT integration, we have developed best practices, advanced project management skills, tools templates and methodologies for all merger phases, from assessment and design through the implementation and post-implementation

support phases. The foundation of our approach is teamwork. We partner with decision makers and stake-holders across levels and develop and implement solutions that help companies achieve a greater level of success.

Our consultants bring deep knowledge and expertise in process, line of business, and support functions providing invaluable expertise to organizations facing the difficult tasks of consolidating operational infrastructures, converting systems and integrating people and products.

A Repeatable Methodology

The SSI consulting team combines practical know how and intimate knowledge of service industry business processes with the unique perspective of solutions conceived and designed with TQM, ITIL, CobiT and Six Sigma concepts. Our proven integration management process provides speed of delivery in a repeatable and sustainable process. This includes best practice tools and methodology, as well as resource readiness and the program management office process to ensure a successful roll-out.
